Editorial Introduction

This issue of the *Independent Journal of Management & production (IJM&P)* features a selection of articles submitted and revised until February 2020. Observe the works are the fruit of research and publications of undergraduate, postgraduate and entrepreneurs.

*It is important to mention that all the works are showed without any kind of payment. All of them are published free from payments or taxes.*

The publication also counts on the work of researchers from various parts of the world, which have undergone a process of peer review.

As chief editor of *IJM&P*, I am indebted to all members of the editorial board and reviewers, which contributed to achieve a very decent job during the evaluation and revision. Moreover, that they have contributed to the Journal in recognition of the international scientific community.

In addition, with all the authors, who trusted the results of their research and publications to the scrutiny of editors and reviewers who are part of our Journal.

On July 20, 2018, the journal was notified via E-mail of its indexing and abstracted in: *Emerging Sources Citation Index (ESCI), Clarivate Analytics - Web of Science - Thompson Reuters*. With the availability of journal data on August 20, 2018.

The Table 1 presents how our collaborators, by their categories of study and sex are.
Table 1: Distribution of users by degree

</table>

In the period from January, 01 to March, 31 2020, the journal was accessed by approximately 106,990 users, of approximately 3,773 cities and 184 countries, in the Figure 2 is presented the map mundi, in which can be observed the countries of where was originating the access (GOOGLE, 2020).
In Figures 3, 4, 5, 6, 7, 8, 9, 10 and 11 is shown a graph of the amount of hits that the journal received between January 1, 2014 and March 31, 2020; these data are based on information provided by the Google analytics.

The Figure 4 shows the comparison of the number of cities, around the world, that have accessed the journal.
The Figure 5 shows the averages of views on the journal in the period between the years of 2014 and 2020.

![Average of Access between 2014 and 2020](image)

**Figure 5: Amount of average between 2014 and 2020**

The Figure 6 shows the comparison of the number of countries, around the world, that have accessed the journal.

![Number of countries that accessed the journal between 2014 and 2020](image)

**Figure 6: Amount of countries between 2014 and 2020**

The Figure 7 shows the comparison of the number of users, around the world, that have accessed the journal.
The Figure 8 shows the comparison of the number of viewers, around the world, that have accessed the journal.

Figure 9 shows the overall evolution accumulated in the 12 months, as well as the visualizations between the years of 2013 and 2020 and that can be compared with Figure 8.
Figure 9: Global evolution of views between 2013 and 2020

Figure 10 shows the evolutionary chart of resolutions address the articles registered in Crossref since 2014, which is based on monthly report. This graph can be seen the evolution of the journal has achieved.

Figure 10: Resolution Report for prefix 10.14807 from between 2014 and 2020

We appreciate the intense participation of all colleagues, which has made our journal become a place of wide dissemination of knowledge.

The following content will be presented with the titles, authors and the pages of all of the articles published in this edition issue.
